BATH REVISITED.

MISS KENNEY AND THE WATER-KEY IN THE CLUVERUS CASE.

An interview with Lillian Madison's Particular Friend—Newspaper Notes About the Prisoner, &c.

Rumors having reached here that Miss Kenney, who was an intimate friend of Lillian Madison during the latter's residence in Bath county, and Mr. Sutton, who was at that time postmaster at Millboro Springs, knew of facts of value to the prisoner Cluvers, a *Dispatch* reporter sent to interview them. He found the mountains covered with ice and snow, and the creeks and houses dripping with icicles.

A Millboro gentleman said to the scribe: "This is the coldest morning we have had this winter. If you cross the mountains you will freeze. You had better put it off."

"Thank," said the Richmond man, "I am warmly clad; I will try it; good-bye." He then passed over the mountain range, and crossed the creek, and was about half way over and the horse's feet began to slip, the reporter began to regret his rash undertaking. Not knowing the road, he was riding up a steep, rocky hill, and he felt that he would not get through. So one can imagine his relief when he landed safely on the opposite bank.

Here he took a bird's-eye view of the last home of Lillian Madison, the old-fashioned country residence of Mrs. Dickinson, her valued friend, and of the postoffice, where Lillian was seen to mail her letters, and the little log-cabin schoolhouse on the river side, with its door closed. Soon was passed the little bridge, and a winding cave, where she was shipped.

MISS KENNEY.

A mile or two further on, in Rattlesnake Hollow, is the home of Mrs. Ella Kenney. Here the reporter dismounted and rapped at the door, which was opened by Miss Ella.

Reporter: Good morning, Miss Kenney; do you know me?

Oh, yes; you are the gentleman who came up here a year ago to see me about the Cluvers case. I remember you very well. You look like you are frozen. I declare, your mustache is full of ice.

Reporter: Thanks; I came all the way from Richmond to see you again. I want to ask you some questions. Did you ever see Miss Madison have a water-key?

Yes; I remember that before she left for Richmond she was in my room. We were talking about different things. She opened her trunk and showed me a water-key. It was a small, round, silver key, and it was very plain. I never had it in my hand.

Reporter: When did you see her?

She said she had a number of correspondents. I remember that she told me on one occasion that she corresponded with as many as sixteen different people.

Did you ever read any of the letters she received?

No; she read some of them to me, though. I told her whom they were from.

They were from Mr. Cluvers. She read to me parts of several. She never did read out all that was in any of his letters. I liked her very much.

Did she receive a good many letters?

Yes; she had quite a number of correspondents. I remember that she told me on one occasion that she corresponded with as many as sixteen different people.

RICHMOND JAIL.

REPORT OF THE COMMISSIONERS TO THE JUDGE OF THE HUSTINGS COURT.

Inspection of the Building Yesterday by Judge Atkins, Commonwealth's Attorney, and Others.

The jail commissioners of the city recently submitted the following report to Judge Atkins, of the Hustings Court:

Cluvers in Jail.

The rumor is widely circulated—though it seems very improbable—that Hon. John S. Wise's visit to Cluvers day before yesterday, made at the prisoner's request, was with reference to bringing the case before the United States Court on a writ of *habeas corpus*. Mr. Wise declines to be interviewed.

Of the 146 members of the General Assembly, 21 have responded to Willie Cluvers's circular, and 18 of these favorably. This would indicate the failure of the scheme. Indeed, nothing that is within the knowledge of the Legislature, or the present writing seems at all likely to work out a further reprieve or reprieve for the prisoner. The new scheme, which contemplates the execution will take place on the 14th instant. But the prisoner evidently does not think so. He is not discouraged. He is hopeful. He is confident that he will be released.

We also found two inmates (both colored men) who were in the jail. They were removed to the asylums.

We regret to report that sixteen cells are unfit for occupancy, owing to dampness. There are also two cells in the jail which are unfit for occupancy.

For a year we have called attention to the importance of placing one or two cells in the jail, but a plug in the street without how would be of no value in case of fire. If a fire should originate in the jail, the jail would be destroyed, and for this reason we put ourselves on record, so that the blood of these poor prisoners would not be on our hands.

We respectfully submit that head-lights should be placed in the jail, and that the jail should be fire-proof.

We found the jail in good order, so far as the officers could make it; the food was good, and the prisoners were well.

Respectfully submitted,

ANTHONY BARONIS, THOMAS PORTER, JAMES M. MILLS, Jail Commissioners City of Richmond.

INSPECTION OF THE PREMISES.

Yesterday Judge Atkins, Commonwealth's Attorney, and others, inspected the jail, and found it in good order.

The jail is in good order, and the prisoners are well.

The jail is in good order, and the prisoners are well.
